Description:

Recording of the 1/20/2022 NASA SBIR/STTR Dissecting the Solicitations webinar; accompanying PDFs of presentation slides and answers to key questions not answered live. Through a presentation and question & answer session with NASA experts, attendees were guided through the program's 2022 SBIR and STTR Phase I solicitations (open January 6 – March 9, 2022). Insights were shared regarding the structure of the solicitation documents, including the organization of NASA's technology needs. The session also covered changes from past years, outlined common mistakes and lesser-known tips, and provided ample time for Q&A. You can [view the presentation slides here](#) [4] and click the "PDF" icon above for the answers to key questions not answered live.
